

CAN YOU GIVE NUMBERS NEW MEANING?

CommInsure is a division of Wealth Management offering a range of life insurance, superannuation, retirement income, investment and general insurance products. We are recruiting two exciting actuarial roles supporting the CommInsure business, within the CommInsure Financial Services team.

Head of Actuarial, General Insurance

CommInsure's general insurance business is very successful. They underwrite home and motor insurance products offered through branch, contact centre and online channels to over 850,000 customers.

You will support CommInsure through:

- Acting as Appointed Actuary for CommInsure's general insurance business (CIL).
- Responsibility for the actuarial aspects of financial and capital reporting for CIL.
- Managing the ICAAP process for CIL.
- Taking responsibility for the reinsurance strategy for general insurance and managing the general insurance reinsurance function.
- Managing and developing a team of actuarial and reinsurance professionals.
- Playing a role of the General Insurance leadership team, as the representative of the Finance function.

Capital Management Actuary

The Capital Management team is responsible for measuring and managing CommInsure's capital position for the Life Insurance business.

Your impact to the business:

- As the key actuarial adviser to the life insurance business on capital, reporting to the General Manager Life Actuarial (AA), you will be able make a big difference to the management of risk and capital within CommInsure.
- Your understanding of the quantification of risks will assist CommInsure in better optimising the use of capital across the business.
- As an important adviser to the business, you will regularly present to the life insurance Board, and to the CommInsure Leadership Team.
- As a member of the Life Actuarial Leadership team, you will be part of a leadership team that mentors and guides the actuarial professionals within CommInsure.

We are committed to building a respectful and inclusive workplace.
All information will be held in the strictest of confidence.
