

Capital Standards for Private Health Insurers

Presented by: Health Practice Committee

Tuesday 2 July 2013
12.00pm - 2.00pm
Actuaries Institute
Level 7, 4 Martin Place, Sydney 2000

Sydney

The Private Health Insurance Administration Council (PHIAC) has released their second consultation paper on the new capital standards that will apply for health insurers. Responses to the consultation paper are required by 31 July 2013.

In this session we will run through the relevant parts of the consultation paper, discussing issues that may arise for those:

- ▶ wanting to respond to PHIAC;
- ▶ who will be preparing the QIS2 statements from insurers; and
- ▶ who will be applying the new standards in practice after March 2014.

The format of the session will be a mix of short statements and open discussion, with the emphasis on the sharing of views and discussion of issues.

This is an opportunity for all actuaries involved in health work to come together and also those not yet involved, but interested in becoming so.

Places are limited so registration is essential. • A light lunch will be provided.
The presentation will begin at 12.30pm.

[Register online](#) or via email events@actuaries.asn.au by 25 June 2013.
