Super in the New World

Benefit Projections and Member Disclosure under Stronger Super

Thursday 14 February 2013
12.00pm – 2.00pm
Actuaries Institute
Level 7, 4 Martin Place, Sydney 2000

Sydney

With the introduction of new prudential standards under the Stronger Super legislation, 2013 is shaping up to be a major year of change in disclosure for defined contribution superannuation funds. In this session the Superannuation Projections and Disclosure Sub-Committee will give an update on the current status of several important issues.

Actuaries practicing in superannuation and related areas, including those involved in the management of retail superannuation products will benefit from attending this session. Topics to be discussed include:

- ▶ potential APRA and ASIC requirements for disclosure of fees, costs and investment performance;
- ▶ retirement benefit projections, including recent discussions with ASIC on Class Order 11/1227; and
- ▶ measurement and disclosure of investment risk to members.

Presented by:

Glenn Langton

Jackie Downham

- Places are limited so registration is essential.
- A light lunch will be provided from 12.00pm.
- The presentation will start from 12.30pm.
